Day 13: Developing Familiarity with React

Simon Says & The Pomodoro Timer

Warm up!

Today's Schedule

Morning:

- Project: Building Simon Says
- Project: Pomodoro Timer

Afternoon:

- Field Trip!

React So Far

- React Dev Tools
- Virtual DOM

Build a Project: Simon Says

The best way to learn something is often through repetition. So today we will build a Simon Says game with React. Follow the Simon Says Tutorial found in today's repository.

Journal Simon Says

Take a moment and write about your Simon Says game experience in your journal.

- What did you learn while building that project?
- How did using React make your work easier or harder to accomplish?

Continuing to Develop React Skills

Great work completing the Simon Says Game. Let's work on one more project this morning: building a Pomodoro Timer.

Find the link to the Pomodoro Timer tutorial in today's repository.

Journal Pomodoro Timer

Take a moment and write about building a Pomodoro Timer

- What did you learn while building that project?
- How did using React make your work easier or harder to accomplish?
- What kind of apps would you like to build for yourself, friends, family or community?

Field Trip!

Please be on your best
